STUDENT						
TC1.1	Verify that a student can register an account with an institutional email using the in-system sign-up form.	1. Navigate to the login page 2. Click the "Create account" link 3. Enter a valid institutional email 4. Enter a valid password 5. Re-enter the same password in Confirm Password 6. Enter First Name and Last Name 7. Check the "Terms and Conditions" box 8. Click the "Sign Up" button	Email: ********@student.buksu.edu.ph Password: $Pass123 Confirm Password: $Pass123 First Name: Fern Aila Last Name: Asiñero	Student account is created successfully; user is redirected to the dashboard or verification page and a success message is displayed.	Account was created successfully, but the user was redirected to the login page instead of the dashboard/verification page.	**Fail**
TC1.2	Verify that sign-up is rejected when the Password and Confirm Password values do not match.	1. Navigate to the login page 2. Click the "Create account" link 3. Enter a valid institutional email 4. Enter a valid password 5. Enter a different value in Confirm Password 6. Enter First Name and Last Name 7. Check the "Terms and Conditions" box 8. Click the "Sign Up" button	Email: ********@student.buksu.edu.ph Password: $Pass123 Confirm Password: $Pass124 First Name: Fern Aila Last Name: Asiñero	Account is not created; error message "Passwords do not match" is displayed; user remains on the sign-up page and the password fields are cleared.	Account was not created; the "Passwords do not match" error was displayed, the user remained on the sign-up page and the fields were cleared.	**Pass**
TC2.1	Verify that a student can register an account using Google with an institutional Google account.	1. Navigate to the login page 2. Click the "Create account" link 3. Click the "Continue with Google" button 4. Select or enter a valid institutional Google email 5. Enter the Google account password 6. Agree to the terms and conditions	Email: ********@student.buksu.edu.ph Password: [redacted]	Student account is created successfully; user is redirected to the student dashboard or verification page and a success message is displayed.	Account was created successfully; user was redirected to the student dashboard/verification page with a success message.	**Pass**
TC2.2	Verify that sign-up is rejected when the email does not belong to the institutional domain.	1. Navigate to the sign-up page 2. Enter a non-institutional email 3. Enter a valid password 4. Re-enter the same password in Confirm Password 5. Enter First Name and Last Name 6. Check the "Terms and Conditions" box 7. Click the "Sign Up" button	Email: john@gmail.com Password: $Pass123 Confirm Password: $Pass123 First Name: John Last Name: Doe	Account is not created; an error message stating that only institutional email addresses are allowed is displayed.	The non-institutional email was accepted and the user was redirected to the login page.	**Fail**
TC3.1	Verify that a student can log in with valid institutional credentials using the in-system login form.	1. Navigate to the login page 2. Enter a registered institutional email 3. Enter the correct password 4. Check the "I'm not a robot" box 5. Click the "Login" button	Email: ********@student.buksu.edu.ph Password: $Pass123	Student is authenticated and redirected to the student dashboard.	Student was authenticated and redirected to the student dashboard.	**Pass**
TC3.2	Verify that student login fails when an incorrect password is entered.	1. Navigate to the login page 2. Enter a registered institutional email 3. Enter an incorrect password 4. Check the "I'm not a robot" box 5. Click the "Login" button	Email: ********@student.buksu.edu.ph Password: WrongPass	Error message "Invalid credentials" is displayed; student is not logged in and remains on the login page.	"Invalid credentials" error message was displayed; student was not logged in.	**Pass**
TC3.3	Verify that student login is blocked when the reCAPTCHA is not completed.	1. Navigate to the login page 2. Enter a registered institutional email 3. Enter the correct password 4. Leave the "I'm not a robot" box unchecked 5. Click the "Login" button	Email: ********@student.buksu.edu.ph Password: $Pass123	reCAPTCHA error message is displayed; login is blocked and the student remains on the login page.	reCAPTCHA error message was displayed and login was blocked.	**Pass**

TC4.1	Verify that a student can log in using an institutional Google account.	1. Navigate to the login page 2. Click the "Continue with Google" button 3. Select or enter a valid institutional Google email 4. Enter the Google account password	Email: ********@student.buksu.edu.ph Password: [redacted]	Student is authenticated and redirected to the student dashboard.	Student was authenticated and redirected to the student dashboard.	**Pass**
TC4.2	Verify that Google login is blocked for a non-institutional (personal) Gmail account.	1. Navigate to the login page 2. Click the "Continue with Google" button 3. Select or enter a personal Gmail address 4. Enter the Google account password	Email: personal@gmail.com Password: AnyPass	Login is blocked; an error message indicating that the email is not whitelisted is displayed.	The non-institutional email was accepted by the system.	**Fail**
TC5.1	Verify that a student can submit a consultation request within the instructor's available schedule.	1. Log in as a student 2. Navigate to the Request Consultation page 3. Click "Add consultation" 4. Select the instructor 5. Enter Title, Purpose and Description 6. Select an available day and time 7. Click "Submit Request" 8. Open the "Requests" tab on the Consultations page	Instructor: Fern Aila Day: Tuesday Time: 10:30-11:00 AM Title: Review Paper Purpose: Thesis Consultation Description: Review the paper for capstone	Consultation request is submitted successfully and appears in the "Requests" tab of the Consultations page.	Request was submitted successfully and appeared in the "Requests" tab.	**Pass**
TC5.2	Verify that a consultation request cannot be submitted when the required Title field is empty.	1. Log in as a student 2. Navigate to the Request Consultation page 3. Click "Add consultation" 4. Leave the Title field empty 5. Enter Purpose and Description 6. Select the instructor, day and time 7. Click "Submit Request"	Instructor: Fern Aila Day: Tuesday Time: 10:30-11:00 AM Title: (empty) Purpose: Thesis Consultation Description: Review the paper for capstone	Request is not submitted; error message "Title is required" is displayed.	Request was not submitted; "Title is required" error message was displayed.	**Pass**
TC5.3	Verify that a consultation request cannot be submitted for a day outside the instructor's availability.	1. Log in as a student 2. Navigate to the Request Consultation page 3. Click "Add consultation" 4. Enter Title, Purpose and Description 5. Select a day/time the instructor is not available 6. Click "Submit Request"	Instructor: Fern Aila Day: Sunday Time: 10:30-11:00 AM Title: Review Paper Purpose: Thesis Consultation Description: Review the paper for capstone	Request is not submitted; error message stating that the instructor is not available on the selected day is displayed.	Request was not submitted; an error message stating the instructor is unavailable on that day was displayed.	**Pass**
TC6.1	Verify that a student receives an approval notification in the in-app inbox after the instructor approves a consultation request.	1. Log in as a student and submit a consultation request 2. Log in as the instructor and approve the request 3. Log in as the student again 4. Open the in-app inbox 5. Locate the approval notification	Student: ********@student.buksu.edu.ph Topic: "Math Tutoring - Feb 10" Date: 2026-02-10 Instructor Action: Approve	Approval notification for the consultation is displayed in the student's in-app inbox.	Approval notification was displayed in the in-app inbox.	**Pass**
TC6.2	Verify that no approval notification is received in the in-app inbox while the consultation request is still pending.	1. Log in as a student and submit a consultation request 2. Log in as the instructor and take no action on the request 3. Log in as the student again 4. Open the in-app inbox	Student: ********@student.buksu.edu.ph Topic: "Math Tutoring - Feb 10" Date: 2026-02-10 Instructor Action: No action / Pending	No approval notification is displayed in the in-app inbox; the request remains in Pending status.	An inbox update was still received even though the request was not approved.	**Fail**

TC7.1	Verify that a student receives an approval email after the instructor approves a consultation request.	1. Log in as a student and submit a consultation request 2. Log in as the instructor and approve the request 3. Open the student's email inbox 4. Open the notification email	Student: ********@student.buksu.edu.ph Topic: "Math Tutoring - Feb 10" Date: 2026-02-10 Instructor Action: Approve	Approval email is delivered to the student's inbox with the consultation details.	Approval email was delivered to the inbox with the consultation details.	**Pass**
TC7.2	Verify that no approval email is sent when the student has disabled email notifications in settings.	1. Log in as a student and navigate to account settings 2. Turn OFF email notifications and save 3. Submit a consultation request 4. Log in as the instructor and approve the request 5. Check the student's email inbox	Student: ********@student.buksu.edu.ph Topic: "Math Tutoring - Feb 10" Date: 2026-02-10 Instructor Action: Approve Email Preference Setting: Disabled	No approval email is delivered to the student's inbox; the system respects the disabled email notification preference.	No approval email was delivered; the disabled email preference was respected.	**Pass**
TC8.1	Verify that a student can update their name in the profile settings.	1. Log in as a student 2. Navigate to the profile page 3. Click the edit name section 4. Enter a new first name and last name 5. Click the "Update" button	Old Name: Fern Aila New Name: Rokko	Name is updated successfully; the new name is displayed on the profile page.	Name was updated successfully and the new name was displayed on the profile page.	**Pass**
TC8.2	Verify that name changes are not saved when the Update button is not clicked.	1. Log in as a student 2. Navigate to the profile page 3. Click the edit name section 4. Enter a new first name and last name 5. Do NOT click the "Update" button 6. Navigate away from the profile page or refresh it	Old Name: Fern Aila New Name: Rokko	Name is not updated; the old name (Fern Aila) remains displayed on the profile; no success message is shown.	Name was not updated; the old name remained displayed and no success message was shown.	**Pass**
TC9.1	Verify that a student can change their account password in the settings.	1. Log in as a student 2. Navigate to the profile page 3. Click "Change password" 4. Enter the current password 5. Enter a new password 6. Confirm the new password 7. Click the "Update" button 8. Log out and log in using the new password	Current Password: $Pass123 New Password: $NewPass123$ Confirm Password: $NewPass123$	Password is updated successfully; the new password can be used to log in.	Password was updated successfully and the new password was accepted on the next login.	**Pass**
TC9.2	Verify that a password change fails when the current password is incorrect.	1. Login as student 2. Navigate to profile page 3. Click change password 4. Enter wrong current password 5. Enter new password 6. Confirm new password 7. Click Update button	Current Password: WrongOldPass New Password: $NewPass123$ Confirm Password: $NewPass123$	Error message "Current password incorrect" is displayed; password is not changed.	"Current password incorrect" error message was displayed; password was not changed.	**Pass**
TC9.3	Verify that a password change fails when the new password and confirmation do not match.	1. Login as student 2. Navigate to profile page 3. Click change password 4. Enter correct current password 5. Enter new password 6. Enter different confirm password 7. Click Update button	Current Password: $Pass123 New Password: $NewPass123$ Confirm Password: DifferentPass	Error message "Passwords do not match" is displayed; password is not changed.	"Passwords do not match" error message was displayed; password was not changed.	**Pass**

TC10.1	Verify that a student can enable and disable email and in-app notifications in the settings.	1. Log in as a student 2. Navigate to Settings 3. Toggle the email notifications switch 4. Toggle the in-app notifications switch 5. Click "Save Changes" 6. Refresh the settings page	Email Notifications: Toggled In-app Notifications: Toggled	Notification preferences are saved; both toggles show the new state after the page is refreshed.	Preferences were saved; both toggles showed the new state after refresh.	**Pass**
TC10.2	Verify that notification toggle changes are not saved when Save Changes is not clicked.	1. Log in as a student 2. Navigate to Settings 3. Toggle the email notifications switch 4. Toggle the in-app notifications switch 5. Do NOT click "Save Changes" 6. Refresh the settings page	Email Notifications: Toggled (unsaved) In-app Notifications: Toggled (unsaved)	Original notification settings remain unchanged after the page is refreshed.	Original notification settings remained unchanged after refresh.	**Pass**
TC11.1	Verify that an approved consultation appears in the student's Google Calendar.	1. Log in as a student with Google Calendar integration enabled 2. Submit a consultation request 3. Log in as the instructor and approve the request 4. Log in as the student and open the schedule/calendar view 5. Open Google Calendar	Student: *******@student.buksu.edu.ph Topic: "Math Tutoring - Feb 10" Date: 2026-02-10 Instructor: fernailaAsiñero@gmail.com Password: $Pass123	Approved consultation appears in Google Calendar as an event with the correct title, date and time.	Approved consultation appeared in Google Calendar with the correct details.	**Pass**
TC11.2	Verify that an approved consultation is not synced to Google Calendar when the Google Calendar integration is turned off.	1. Log in as a student and navigate to Settings 2. Turn OFF the Google Calendar integration toggle 3. Submit a consultation request 4. Log in as the instructor and approve the request 5. Open the student's schedule/calendar view 6. Open Google Calendar	Student: *******@student.buksu.edu.ph Password: $Pass123 Topic: "Math Tutoring - Feb 10" Date: 2026-02-10 Instructor: fernailaAsiñero@gmail.com Google Calendar Integration: Disabled	Consultation event does NOT appear in Google Calendar; the system respects the disabled integration setting.	Event did not appear in Google Calendar; the disabled integration setting was respected.	**Pass**
TC12.1	Verify that a student can log out of the system.	1. Log in as a student 2. Locate the logout button in the navigation bar 3. Click "Logout"	Student: *******@student.buksu.edu.ph (logged in)	Session is terminated and the user is redirected to the login page.	Session was terminated and the user was redirected to the login page.	**Pass**
TC12.2	Verify system behavior when the internet connection is lost before the logout request completes.	1. Log in as a student 2. Locate the logout button in the navigation bar 3. Disable the internet connection 4. Click "Logout"	Student: *******@student.buksu.edu.ph (logged in) Network: Disconnected	Logout does not complete; a connection error message is displayed; user remains logged in on the current page and is not redirected to the login page.	Logout did not complete; a connection error was displayed and the user remained on the current page.	**Pass**
INSTRUCTOR						
TC13.1	Verify that an instructor can log in with valid credentials using the in-system login form.	1. Open the system login page 2. Enter the instructor email 3. Enter the correct password 4. Click "Login"	Email: fernasinero@gmail.com Password: $Pass123	Instructor is authenticated successfully; the instructor dashboard is displayed.	Instructor was authenticated and the instructor dashboard was displayed.	**Pass**
TC13.2	Verify that instructor login fails when an incorrect password is entered.	1. Open the system login page 2. Enter the instructor email 3. Enter an incorrect password 4. Click "Login"	Email: fernasinero@gmail.com Password: WrongPass12	Error message indicating invalid email or password is displayed; instructor is not logged in.	Invalid email/password error was displayed; instructor was not logged in.	**Pass**
TC13.3	Verify that a validation error is displayed when the email field is left blank on login.	1. Open the system login page 2. Leave the email field blank 3. Enter the password 4. Click "Login"	Email: (blank) Password: $Pass123	Email field is highlighted with a required-field error message; instructor is not logged in.	Email field was highlighted with an error message; instructor was not logged in.	**Pass**

TC14.1	Verify that an instructor can log in using Google authentication.	1. Open the login page 2. Click "Login with Google" 3. Select a valid Google account 4. Grant the requested permissions	Google Account: fernasinero@gmail.com	Instructor is logged in successfully and redirected to the instructor dashboard.	Instructor was logged in and redirected to the instructor dashboard.	**Pass**
TC14.2	Verify that Google login fails gracefully when the network connection is lost.	1. Open the login page 2. Disconnect the internet connection 3. Click "Login with Google" 4. Attempt to select a Google account	Google Account: fernasinero@gmail.com Network: Disconnected	Network error message is displayed; the login process is interrupted and the instructor is not logged in.	Network error message was displayed and the login process was interrupted.	**Pass**
TC15.1	Verify that an instructor can approve a pending student consultation request.	1. Log in as an instructor 2. Navigate to Consultations > Requests 3. Select a pending request 4. Click "Approve"	Student: ********@student.buksu.edu.ph Topic: "Math Tutoring - Feb 10" Date: 2026-02-10 Status: Pending	Consultation status changes to Approved and the consultation is moved to the "Upcoming" tab.	Status changed to Approved and the consultation moved to the "Upcoming" tab.	**Pass**
TC15.2	Verify that a consultation request cannot be approved when the network connection fails.	1. Log in as an instructor 2. Navigate to Consultations > Requests 3. Disconnect the internet connection 4. Select a pending request 5. Click "Approve"	Student: ********@student.buksu.edu.ph Topic: "Math Tutoring - Feb 10" Date: 2026-02-10 Status: Pending Network: Disconnected	Network error message is displayed; the approval is not processed and the request remains Pending.	Network error message was displayed; the approval was not processed.	**Pass**
TC16.1	Verify that an instructor can reject a pending student consultation request.	1. Log in as an instructor 2. Navigate to Consultations > Pending Consultations 3. Select a pending request 4. Click "Reject/Cancel" 5. Confirm the rejection	Student: ********@student.buksu.edu.ph Topic: "Math Tutoring - Feb 10" Date: 2026-02-10 Status: Pending	Consultation status changes to Rejected and the consultation is removed from the "Pending" tab.	Status changed to Rejected and the consultation was removed from the "Pending" tab.	**Pass**
TC16.2	Verify that a consultation request is not rejected when the instructor cancels the confirmation prompt.	1. Log in as an instructor 2. Navigate to Consultations > Pending Consultations 3. Select a pending request 4. Click "Reject/Cancel" 5. Click "Cancel" on the confirmation modal	Student: ********@student.buksu.edu.ph Topic: "Math Tutoring - Feb 10" Date: 2026-02-10 Status: Pending	Consultation remains in Pending status; no changes are saved.	Consultation remained Pending; no changes were saved.	**Pass**
TC17.1	Verify that an instructor can add consultation availability (days, time range and maximum student slots).	1. Log in as an instructor 2. Navigate to Availability > Add Availability 3. Select the days 4. Set the start and end time 5. Enter the maximum number of student slots 6. Click "Submit"	Days: Monday, Tuesday, Thursday Start Time: 7:30AM End Time: 3:00PM Slots: 5	Availability is saved successfully and becomes visible to students for booking.	Availability was saved and became visible to students for booking.	**Pass**
TC17.2	Verify that availability cannot be added when the start time is later than the end time.	1. Log in as an instructor 2. Navigate to Availability > Add Availability 3. Select a day 4. Set a Start Time later than the End Time 5. Enter the maximum number of student slots 6. Click "Submit"	Days: Monday Start Time: 4:00 PM End Time: 3:00 PM Slots: 5	System displays validation error "Start time must be before end time"; availability is not saved.	Availability was still saved despite earlier start time set.	**Fail**

TC17.3	Verify that availability cannot be added when the number of slots is zero or negative.	1. Log in as an instructor 2. Navigate to Availability > Add Availability 3. Select a day and set a valid start and end time 4. Set the slots to 0 5. Click "Submit"	Days: Monday Start Time: 7:30AM End Time: 3:00PM Slots: 0 (repeat with -1)	System prevents submission; error message "Slots must be greater than 0" is displayed.	Submission was prevented; the "Slots must be greater than 0" error was displayed.	**Pass**
TC18.1	Verify that an instructor can modify existing consultation availability.	1. Log in as an instructor 2. Navigate to Availability 3. Select an existing schedule 4. Click the edit icon 5. Modify the end time and slots 6. Click "Save changes"	Existing: Monday, Tuesday, Thursday; 7:30AM-3:00PM; 5 slots Updated: End Time 4:00PM; Slots: 7	Availability is updated and students see the updated time slot.	Availability was updated and students saw the updated time slot.	**Pass**
TC18.2	Verify that consultation availability cannot be modified when the network connection fails.	1. Log in as an instructor 2. Navigate to Availability 3. Select an existing schedule and click the edit icon 4. Disconnect the internet connection 5. Modify a field and click "Save changes"	Existing: Monday, Tuesday, Thursday; 7:30AM-3:00PM; 5 slots Network: Disconnected	Network error message is displayed; the availability is not modified.	Network error message was displayed; the availability was not modified.	**Pass**
TC19.1	Verify that an instructor can remove a specific consultation availability.	1. Log in as an instructor 2. Navigate to Availability 3. Select an existing schedule 4. Click the delete icon 5. Confirm deletion if prompted	Existing: Monday, Tuesday, Thursday; 7:30AM-3:00PM; 5 slots	Availability is removed from the system and students can no longer book the slot.	Availability was removed and students could no longer book the slot.	**Pass**
TC19.2	Verify that consultation availability cannot be deleted when the network connection fails.	1. Log in as an instructor 2. Navigate to Availability 3. Select an existing schedule 4. Disconnect the internet connection 5. Click the delete icon	Existing: Monday, Tuesday, Thursday; 7:30AM-3:00PM; 5 slots Network: Disconnected	Network error message is displayed; the availability is not deleted.	Network error message was displayed; the availability was not deleted.	**Pass**
TC20.1	Verify that an instructor can add a new consultation category.	1. Log in as an instructor 2. Go to Consultations > Accepted Purposes 3. Click the edit icon 4. Enter a new category name 5. Click "Add"	Consultation Category: Remedial Activity	New category is added successfully and becomes selectable by students.	Although it was confirmed that a new category was added, it did not reflect in the selection for students.	**Fail**
TC20.2	Verify that a duplicate consultation category cannot be added.	1. Log in as an instructor 2. Go to Consultations > Accepted Purposes 3. Click the edit icon 4. Enter a category name that already exists 5. Click "Add"	Consultation Category: Remedial Activity (already existing)	Category is not added and an error message is displayed; the category list contains no duplicate.	An exact same category name was added and it was still saved.	**Fail**
TC21.1	Verify that an instructor can delete a consultation category.	1. Log in as an instructor 2. Go to Consultations > Accepted Purposes 3. Click the edit icon 4. Click the X mark on the selected category	Consultation Category: Remedial Activity	Category is removed and no longer appears in the student's options.	The deleted consultation category remained in the list the students choose from.	**Fail**
TC22.1	Verify that an instructor can view approved consultations in Google Calendar.	1. Log in as an instructor 2. Go to Settings > Connect Google Calendar 3. Open the Google Calendar site using the linked instructor account 4. View the approved schedules	Site: https://calendar.google.com/calendar/ Account: fernasinero@gmail.com	Google Calendar opens and approved consultations appear as calendar events.	The approved consultations did not appear on the calendar even with Google Calendar connected.	**Fail**

TC22.2	Verify that approved consultations are not synced to Google Calendar when the instructor has not linked a Google account.	1. Log in as an instructor who has not linked a Google account 2. Open the Google Calendar site 3. Check for approved consultation events	Site: https://calendar.google.com/calendar/ Google Account: Not linked	Consultation schedules are not synced to Google Calendar.	No consultation events were synced to Google Calendar.	**Pass**
TC23.1	Verify that an instructor can edit their profile information.	1. Log in as an instructor 2. Click the profile icon at the top right of the dashboard 3. Enter a new Name 4. Click "Save Changes"	Name: Junior	Changes are saved and the new name is displayed on the profile.	Changes were saved and the new name was displayed.	**Pass**
TC23.2	Verify that a profile cannot be saved when the required Name field is empty.	1. Log in as an instructor 2. Click the profile icon 3. Clear the Name field 4. Click "Save Changes"	Name: (empty)	Changes are not saved; a validation message for the required Name field is displayed.	Changes were not saved; a validation message was displayed.	**Pass**
TC24.1	Verify that an instructor can change their account password with validation and confirmation.	1. Login as instructor 2. Navigate to profile page 3. Click change password 4. Enter current password 5. Enter new password 6. Confirm new password 7. Click Update button	Current Password: $Pass123 New Password: $NewPass123$ Confirm Password: $NewPass123$	Password is updated successfully; the new password can be used to log in.	Password was updated successfully and the new password was accepted on the next login.	**Pass**
TC24.2	Verify that a password change fails when the current password is incorrect.	1. Login as instructor 2. Navigate to profile page 3. Click change password 4. Enter incorrect current password 5. Enter new password 6. Confirm new password 7. Click Update button	Current Password: WrongCurr New Password: $NewPass123$ Confirm Password: $NewPass123$	Error message is displayed; password is not updated.	Error message was displayed; password was not updated.	**Pass**
TC24.3	Verify that a password change fails when the new password and confirmation do not match.	1. Log in as an instructor 2. Navigate to the profile page and click "Change password" 3. Enter the correct current password 4. Enter a new password 5. Enter a different value in Confirm Password 6. Click the "Update" button	Current Password: $Pass123 New Password: $NewPass123$ Confirm Password: $NewPass123	Error message "Passwords do not match" is displayed; password is not updated.	"Passwords do not match" error was displayed; password was not updated.	**Pass**
TC25.1	Verify that an instructor can enable and disable email and in-app notifications.	1. Login as instructor 2. Navigate to settings/notifications page 3. Toggle Email notifications OFF 4. Toggle In-app notifications ON 5. Save changes 6. Verify toggle states	Username: fernasinero@gmail.com Pass: $Pass123 Email Toggle: OFF In-app Toggle: ON	Notification preferences are saved; toggles reflect the selected states (Email OFF, In-app ON).	Preferences were saved; toggles showed Email OFF and In-app ON.	**Pass**
TC25.2	Verify that notification toggle changes are not saved when Save Changes is not clicked.	1. Log in as an instructor 2. Navigate to Settings 3. Toggle the email notifications switch 4. Toggle the in-app notifications switch 5. Do NOT click "Save Changes" 6. Refresh the settings page	Email Notifications: Toggled (unsaved) In-app Notifications: Toggled (unsaved)	Original notification settings remain unchanged after the page is refreshed.	Original notification settings remained unchanged after refresh.	**Pass**
TC26.1	Verify that an instructor can log out of the system.	1. Login as instructor 2. Navigate to dashboard 3. Click logout button/profile menu 4. Select "Logout" option 5. Confirm logout if prompted	Email: fernasinero@gmail.com Password: $Pass123	Session is terminated and the user is redirected to the login page.	Session was terminated and the user was redirected to the login page.	**Pass**

TC26.2	Verify that the instructor session is invalidated after logout and the dashboard cannot be accessed.	1. Log in as an instructor and log out 2. Click the browser Back button 3. Attempt to open the dashboard URL directly	Email: fernasinero@gmail.com (logged out)	Instructor is not allowed back into the dashboard and is redirected to the login page.	Dashboard was not accessible; the instructor was redirected to the login page.	**Pass**
ADMIN						
TC28.1	Verify that an admin can log in using Google authentication and access the admin dashboard.	1. Open the admin login page 2. Click "Login with Google" 3. Select a valid admin Google account 4. Grant the required permissions	Google Email: nickxylanmelloria@gmail.com	Admin is authenticated successfully and redirected to the admin dashboard; a secure session is created.	Admin was authenticated and redirected to the admin dashboard; session was created.	**Pass**
TC28.2	Verify that Google login fails gracefully when the network connection is lost during authentication.	1. Open the admin login page 2. Click "Login with Google" 3. Disconnect the internet during credential verification	Google Email: nickxylanmelloria@gmail.com Network: Disconnected during verification	System displays a "Connection Timeout" message and remains on the login page.	"Connection Timeout" message was displayed; the admin remained on the login page.	**Pass**
TC29.1	Verify that a Super Admin can assign specific permissions to another admin role.	1. Navigate to the 'Roles' module. 2. Select an existing admin role or create a new one. 3. Toggle specific checkboxes under 'Permissions' (e.g., user:create, log:read). 4. Click 'Save Changes'.	Role Name: Sub-Admin Permissions: consultation:read, user:read	System updates the role's permission set and applies it to the assigned user.	Role permissions were updated and applied to the assigned user.	**Pass**
TC29.2	Verify that the protected Super Admin role cannot be modified.	1. Log in as a Super Admin and go to the 'Roles' module 2. Select the 'Super Admin' role and uncheck all permissions 3. Click 'Save'	Role: Super Admin	System blocks the action and shows/logs "Cannot update Super Admin role"; permissions remain unchanged.	Action was blocked with the "Cannot update Super Admin role" message.	**Pass**
TC29.3	Verify that a role cannot be created without at least one permission.	1. Log in as an admin and click 'Create New Role' 2. Enter a Role Name 3. Leave all permission checkboxes unchecked 4.
